THE FLIPPER

The World’s Most Versatile Lifting Machine

Model: The Flipper
Glass Capacity: 700 lbs
Power: 24 Volts
Boom: Proportional Telescoping Boom
Steering: Rear Wheel
Drive: Rear Wheel Electric Motor
Weight: 2,380 lbs
Material Lifting: Optional 1000# Lift Hook
Charger: On-board 110 Volts

Side-Shift Feature

The side-shift feature of The Brandon Mini enables the operator to move the glass or window sideways to fit between the mullions or jambs. This side-shift is accomplished by a precise electric actuator connected to the front axle which moves the machine to either side.
